

Dental Workforce Development (DWD): Dental courses in Postgraduate Education Centres

Autumn Update

This Newsletter gives information about the educational activities and opportunities that are open to all dental professionals in the Midlands and East of England. The staff at HEE hope that you will find it of help. Further information can be found at our website:

<https://heeoee.hee.nhs.uk/dental>

Dental courses in Postgraduate Education Centres & Online

HEE is providing a range of educational courses from sites around the region. Details of the courses can be accessed via the Accent Course Management System (CMS).

Booking to attend courses using Accent

Full details of how to book onto the courses is also available at: <https://heeoee.hee.nhs.uk/node/206>

- We would recommend that staff who are not dentists (e.g. practice managers, receptionists) register as DCPs.
- Evaluation of courses attended and downloading of CPD certificates is also carried out using the Accent system.

The majority of DWD courses (except hands-on sessions) will be delivered virtually. If you find a virtual course that suits your needs the location of the centre providing the session is not relevant, anyone can book on via Accent.

Course	Date	Venue	Code

Please direct all queries to DWD.ME@hee.nhs.uk

Our goal at HEE is to develop the whole dental team. We look forward to welcoming you in person or online at the courses we have provided for you.

DCP Study Clubs

Health Education England is keen to support Dental Care Professionals in the Midlands and East of England. We have set up a range of DCP Study Clubs. These will provide an opportunity for various DCP groups to come together in an informal supportive setting to share knowledge and experience and to identify areas in which changes can be made to improve the quality of service offered to their patients.

These groups will initially be online, but the aim is to create several small local groups to provide peer support and development opportunities for DCPs.

Benefits of a Study Club:

- A method of sharing knowledge between colleagues
- A stimulus for individual learning
- A tool to change and improve practice performance
- A method of supporting daily practice activities
- A method for agreeing clinical standards for a clinical audit
- A vehicle to improve communications and build relationships between local practices

DENTAL NURSES

- **25.11.21** (18.30 – 20.30) Online (**Accent - BDH053**)
- **20.01.22** (18.30 – 20.30) Online
